Accommodation and services

Holmes House provides for 49 clients, whose needs are associated with their mental health, offering specialist dementia care. We also accommodate clients with physical disabilities on either a permanent basis, on a short-term respite or intermediate care stay. The accommodation is designed to give easy access to clients in wheelchairs, and who need assistance with their mobility. All of our accommodation is offered in single room format.

Prospective clients

Prospective clients are encouraged to view available vacant accommodation, either with family, friends or advocates and to visit for a day to fully experience the home. Prior to a client being offered a place at Holmes House, a full individual care plan assessment will be carried out to identify the individual needs and choices of our prospective clients. Upon admission to Holmes House, we will place great emphasis on finding out as much about your previous life as we possibly can, this allows us to offer a very individual service, tailored to your individual choice and needs, but most importantly allows us to offer you a full social care package, enabling you to take part in the activities on offer.

Activities

Many of our clients still enjoy the opportunity to be involved in maintaining their own accommodation, which can be personalised to your own choice. Pets will be welcome and we will try hard to ensure that the individual is involved in every aspect of the care delivery that is deemed to be appropriate for the assessed level of need.

The emphasis at Holmes House is one of allowing you the opportunity to maintain as much independence and choice as you would like, and whilst we very much regard it as our responsibility to provide a safe, secure environment, we will encourage all clients to participate in our daily activity programmes, whether they be on a group or individual basis, allowing you to enjoy life at PrimeLife, Holmes House.
