Accommodation and services

Old Rectory provides for 40 clients in en-suite single rooms, offering care and support for those whose needs are associated with old age and/or their mental health, including a specialist dementia care unit. We can also accommodate clients with a physical disability, offering permanent or short-term respite stays. The home has recently developed a specialist intermediate care service for clients needing support and rehabilitation prior to returning home after a hospital stay.

Prospective clients

Prior to any admission to the home our staff team will carry out an individual care plan assessment, which will focus on client's specific choices and needs. These care plans will be structured to the client's preferences and will focus on maintaining and developing as much independence as possible.

Whilst accepting that the majority of our clients will be suffering from dementia, we offer a sensitive support service to allow clients to embark upon a variety of daily living tasks, all will be offered the opportunity to personalise their rooms and to maintain as much choice and independence as they either choose or are able to accommodate.

Activities

We are proud to offer a thriving activity programme, which focuses on regular reminiscence sessions and a variety of either individual or group activities with regular trips out into the local community on our wheelchair adapted Mercedes mini-buses.

Whilst we very much regard it as our primary responsibility to provide a safe and secure environment, we will encourage, in a sensitive manner, all clients to participate in all that we offer, welcoming you to enjoy life PrimeLife, Old Rectory.
